REPORT OF DIRECTOR AND SCHOOL IMPROVEMENT COUNCIL

Students attending the Aiken County Career and Technology Center and completing four or more credits in one skill area are designated as completers. This year 158 of our students will receive the distinction of being completers in their chosen field of study. This is a major accomplishment for these students, and with many completing national certifications in their specific area of training, these students are well on their way to entering the workforce as confident, productive citizens.

Because of the engagement and real world learning opportunities, students attending the Career Center have maintained over a ninety-five percent graduation rate in recent years. For the 12th straight year, our Cosmetology students had 100 percent passage rate on the state licensing exam. Entering the second year of our partnership with engine manufacturer MTU, students completing this apprenticeship program will earn internationally recognized credentials.

We are proud of the individual and collective accomplishments of our students. Many have excelled at the state and national level, with some holding state offices in Career and Technology Student Organizations. Some of our notable accomplishments this year included our apprenticeship program being featured on the Dan Rather Reports national television program.

As we continue to enthusiastically assist our students toward achieving success at our school and beyond, we welcome and appreciate the continued support from our parents, industry partners and community.
